|                                       | Amount      | % Daily |
|---------------------------------------|-------------|---------|
|                                       | Per Serving | Value   |
| Magnesium<br>(as magnesium carbonate) | 350 mg      | 83%     |

**Other Ingredients:** Ionic magnesium (a blend of citric acid and magnesium carbonate), natural cherry flavor, and organic stevia extract.

Magnesium Powder is a highly-absorbable, quick-acting source of magnesium in a convenient effervescent drink. The blend of citric acid and magnesium carbonate creates a special ionic form of magnesium. When added to water, ionic magnesium produces the characteristic carbonation or fizzing experience. Fizzing is an indication that a chemical reaction is taking place, and this reaction renders the magnesium completely soluble in water.

Magnesium helps the body respond quickly to stress, and helps give the body a deep sense of relaxation.†
