(900 FIP‡ units protease - pancreas - Bos taurus)§		
Rutin	150 mg	*
(Rutoside trihydrate Sophora japonica)§		

* Daily Value not established

Other Ingredients: Cellulose, vegetable stearin, di-calcium phosphate, cellulose gum, silica and magnesium stearate.

This systemic blend contains powerful enzymes that may be useful as digestive aids and to help reduce inflammation. They help support and maintain the health and mobility of joints.†

Many enzymes are de-activated when exposed to the highly acidic conditions found in the stomach. The enzymes in these tablets however are enteric coated to protect the activity of the enzymes.

**USP units are determined through standardized tests outlined in the United States Pharmacopeia.

‡FIP is a measurement of enzyme activity according to the methods of the International Pharmaceutical Federation

§ From dried purified aqueous extracts
