* Percent Daily Values based on a 2,000 calorie diet

** Daily Value not established

Other Ingredients: Vegetarian capsule (cellulose, water), magnesium stearate, silica and cellulose.

L-Leucine, L-Isoleucine and L-Valine, commonly known as Branched Chain Amino Acids or BCAAs, cannot be produced by the body and must be consumed through diet or dietary supplements. They are essential to building and maintaining muscle tissue and have long been used by athletes and other active individuals to activate protein synthesis and reduce muscle breakdown caused by intense training or physical activity.†
