

ENTERIC-COATED

SAM-e

200 mg

Dietary Supplement

30 Tablets

SUPPLEMENT FACTS

Serving Size 1 Enteric-Coated Tablet

	Amount	% Daily
	Per Serving	Value
SAM-e	200 mg	*
(from 400 mg of s-adenosyl-l-methionine tosylate)		

*Daily Value not established

Other Ingredients: Cellulose, silica, magnesium stearate, ethyl cellulose, oleic acid, medium chain triglycerides, sodium alginate, modified cellulose, triacetin, calcium carbonate and riboflavin (for color). SAM-e is produced in small amounts by the human body, where it is an important physiological factor in the production of many compounds. However, the body does not always produce adequate amounts of SAM-e and supplementation is sometimes required. SAM-e has been the subject of many scientific studies in Europe. Thousands of Europeans have

experienced a multitude of benefits from twenty years of its clinical use.

SAM-e strongly absorbs moisture from the environment, which can lead to a compromise in its overall quality. Consequently, our SAM-e tablets are carefully enteric-coated for the strongest protection.

Contains No sugar, salt, dairy, wheat, gluten, corn, soy, preservatives, artificial colors or flavors.

Suggested Use: As a dietary supplement, adults take one (1) enteric-coated tablet, two (2) times daily between meals, or as directed by a health care professional. Store in a cool, dry place and away from direct light.

KEEP OUT OF REACH OF CHILDREN.
