Whey protein is among the most valuable kinds of protein available. It scores very well in all measures of protein value, such as PER (Protein Efficiency Ratio) 3.2, BV (Biological Value) 100 and PDCAAS (Protein Digestibility Corrected Amino Acid Score) 1.0. The PDCAAS is the most relevant measure of the quality of proteins for humans and is the official rating system used by the World Health Organization. The score of 1.0 is the highest possible rating. Whey protein contains all of the essential amino acids in biologically significant amounts and is simply one of the most complete sources of proteins and amino acids in the marketplace. It does not contain any synthetic hormones such as rBGH. The whey protein concentrate used in this formula is produced through a reverse osmosis, micro filtration, and ultra filtration process that yields the highest level of protein and amino acids while preserving all the naturally occurring, immune enhancing and muscle nourishing bioactives.

Ingredients: Whey protein concentrate (yielding approximately 36% B-lactoglobulin, 10% A-lactalbumin, 3% immunoglobulin G, 15% glycomacropeptides, 3% proteose peptone 5, 25% branched chain amino acids and 19% glutamic acid and soy lecithin).

Contains No artificial sweeteners or added sugars, yeast, wheat, gluten, corn, preservatives, artificial colors or flavors.

Non-GMO and rBGH free. Contains milk & dairy products and soy lecithin for easy mixing. Soy Lecithin is present at less than 1% of the formula. Whey is a milk derivative (protein). This product only contains naturally occurring sugars that are found in whey protein.

Suggested Use: Adults add one (1) level scoop into 8 oz. of water, milk or juice and stir vigorously. Store in a cool, dry place and away from direct light.

KEEP OUT OF REACH OF CHILDREN.
