Isoleucine	1.25 g	**
Valine	1.25 g	**
Glutamine	3 g	**

*Percent Daily Values are based on a 2,000 calorie diet

**Daily Value not established

Other Ingredients: Inulin, natural flavors, citric acid, stevia extract powder (Reb A), beet root powder, xylitol, sea salt, silica, monk fruit extract.

L-Leucine, L-Isoleucine, and L-Valine, which are more commonly known as Branched Chain Amino Acids or BCAAs, cannot be produced by the body and must be consumed through the diet or supplements. They are essential to building and maintaining muscle tissue and have long been used by athletes and other active individuals to activate protein synthesis and reduce muscle breakdown caused by intense training or physical activity.†

This water soluble formula of BCAAs, Glutamine and B Vitamins is instantized and mixes readily into water for maximum absorption.
